kubernetes

Kubernetes: Cluster SetUp on AWS

➤ Verify **Kubectl** is installed.

➤ Generate SSH Keys
ssh-keygen -f .ssh/id_rsa

➤ **Verify Public Key**
cat .ssh/id_rsa.pub

➤ **Rename kops-linux-amd64 to kops for user easy.**
sudo mv /usr/local/bin/kops-linux-amd64 /usr/local/bin/kops

See you in next lecture …
